

With flood stream and strong southerly winds, a dangerous tide rip forms off Cape Mudge, often extending across the entrance of Discovery Passage. Extremely steep waves may be encountered under these conditions which are a serious hazard to small vessels.

CLAPOTIS
 Lors des courants de flots et des vents intenses du sud, un clapotis dangereux se forme au large de Cape Mudge, croisant souvent l'entree de Discovery Passage. Ces conditions peuvent engendrer des vagues accores, posant un danger serieux aux petites embarcations.
